ALKALI SOILS; THEIR FORMATION, PROPERTIES AND RECLAMATION, By W. P. Kelley.
Reinhold, 1951. 176 p. 56.33 K28.

THE CLOSING OF THE PUBLIC DOMAIN; DISPOSAL AND RESERVATION POLICIES, 1900-50, By E. L. Peffer. Food Research Inst. Misc. Pub. no. 10. Stanford Univ. Press, 1951. 372 p. 389.9 F73

After a study extending over 13 years the author gives the background of the struggle of policy over the public domain for the first 50 years of the 20th Century. In 1900 more than half of the original public domain of around 1,300 million acres still belonged to the government, open to entry and settlement. Today, one-fifth of this country remains in federal hands, closed to private acquisition, except by establishing a mining claim. This book shows how this domain has come to be regarded as a trust in behalf of the public interest.
